

## Car Compound – Team SLJR – Pacific Mazda & Caorda Web Solutions

---

The Car Compound project is all about making car dealers' lives easier. Team SLJR created an iOS application that allows car dealers to create and manage bird's-eye-view representations of their vehicle storage lots. Michael Stevulak (Car Dealer, Pacific Mazda) and Paul Johnston (President, Caorda Web Solutions) are the project sponsors.

### **Luke Mitchell**

Luke is passionate about his work and has strong leadership skills that he used as the team's Project Manager. He started programming video games at the age of eleven. He has a highly creative and analytical mind that allows him to excel at any task.

### **Ramneet Kaur**

Ramneet moved to Victoria from India two years ago to become a full-stack developer. She has experience in web development and loves challenges. Her hardworking attitude makes her an asset to the team.

### **Joshua Burton**

Joshua is a full-stack developer and system administrator in training. He is highly observant and capable of approaching problems from multiple angles. He loves creative activities and hopes to develop his own video games in the future. His dedication to his work makes him a valuable teammate.

### **Sam Faris**

Sam is a full-stack developer with experience in mobile app development and data management for an independent contractor. Sam excels at being friendly and making those around him feel welcome. His drive to ensure the project's quality and timeliness is an asset to the team.

Team SLJR would like to thank Michael and Paul for the opportunity to kickstart the Car Compound application and also for being such engaged project sponsors. Team SLJR would also like to thank Lance Hesketh (Senior Developer, Caorda Web Solutions) for his invaluable technical advice and support throughout the application's development.
