## Project Information

**Project Name:**

**Background:** (briefly explain the domain and the context in which you are trying to solve).

# Information and Computer Systems Capstone Project Submission

**Objectives:** Briefly explain what problem you would like the student to solve, and what constraints and non-functional requirements they should be aware of. Note that detailed functional requirements will be jointly defined between you and the student team early in the project and do not need to be detailed here.

**Major Deliverables:** Explain what you would need to see to declare success: a prototype, a mobile app, etc.

**Special Considerations:** You may want to include descriptions of the following:

- If special equipment and tools needed;
- If there are required interfaces already existing; and
- The need for a formal Intellectual Property agreement with the students and faculty are needed.

# Information and Computer Systems Capstone Project Submission

**Is this a continuation of another project?**

Yes  No If yes, please provide some details of the work to-date.

**Main Project area** (check whichever applicable)

- Database design and development
- System integration
- Technical programming
- Wireless and mobile applications
- Computer game design
- Web-based object-oriented applications
- Website design and management
- Other, please specify:

**What is your preferred team size?**

2  3  4

**Are you or a representative able to present the project and meet with the student teams at the Interurban campus on November 28, 2018?**

Yes  No

**I have read and understand the commitment and responsibilities that are associated with the Capstone project as a sponsor.**

Yes  No

**Thank-you!**
